Cycle First Listed: 2002
AU_ID: MD-02130904-Lake_Roland
Basin Name: Jones Falls
Basin Code: 02130904
HUC: 02060003
County: BA
Water Type: IMPOUNDMENT
Water Type Detail: Impoundments
Designated Use: Fishing
Listing Category: 5 - Impaired, TMDL required
Pollutant: PCB in Fish Tissue
Indicator: Direct Measurement
Priority: High

Impairment Addressed in Two Years?: Yes
Delisting Cycle:
Approval Date:
Notes:

Cycle First Listed: 2010
AU_ID: MD-02130904
Basin Name: Jones Falls
Basin Code: 02130904
HUC: 02060003
County: BA, BC
Water Type: RIVER
Water Type Detail: Non-tidal 8-digit watershed
Designated Use: Aquatic Life and Wildlife
Listing Category: 5 - Impaired, TMDL required
Pollutant: Chlorides
Indicator: Direct Measurement
Priority: Low

Impairment Addressed in Two Years?: No
Delisting Cycle:
Approval Date:
Notes:

The Biostressor analysis indicated that chlorides are a major stressor affecting biological integrity in this watershed. This listing replaces the biological listing.

Cycle First Listed: 2010
AU_ID: MD-02130904
Basin Name: Jones Falls
Basin Code: 02130904
HUC: 02060003
County: BA, BC
Water Type: RIVER
Water Type Detail: Non-tidal 8-digit watershed
Designated Use: Aquatic Life and Wildlife
Listing Category: 5 - Impaired, TMDL required
Pollutant: Sulfates

Indicator: Direct Measurement
Priority: Low
Impairment Addressed in Two Years?: No
Delisting Cycle:
Approval Date:
Notes:

The Biostressor analysis indicated that sulfates are a major stressor affecting biological integrity in this watershed. This listing replaces the biological listing.

Cycle First Listed: 2012
AU_ID: MD-02130904
Basin Name: Jones Falls
Basin Code: 02130904
HUC: 02060003
County: BA, BC
Water Type: RIVER
Water Type Detail: Non-tidal 8-digit watershed
Designated Use: Aquatic Life and Wildlife
Listing Category: 4c - Impaired, but not due to water quality (i.e., habitat modification)
Pollutant: Channelization
Indicator: Direct Measurement
Priority:

Impairment Addressed in Two Years?: No
Delisting Cycle:
Approval Date:
Notes:

The Biostressor analysis indicates that stress channelization due to urban development is a major stressor affecting biological integrity in

The Biostressor analysis indicates that stream channelization due to urban development is a major stressor affecting biological integrity in this watershed. This listing replaces the biological listing.

Cycle First Listed: 1996
AU_ID: MD-02130904
Basin Name: Jones Falls
Basin Code: 02130904
HUC: 02060003
County: BA, BC
Water Type: RIVER
Water Type Detail: Non-tidal 8-digit watershed
Designated Use: Aquatic Life and Wildlife
Listing Category: 4a - Impaired, TMDL completed
Pollutant: Total Suspended Solids (TSS)
Indicator: Habitat Evaluation
Priority:
Impairment Addressed in Two Years?: No
Delisting Cycle:
Approval Date: 9/29/2011

Notes:
 The Biostressor analysis indicated that TSS is a major stressor affecting biological integrity in this watershed. This listing replaces the biological listing.

Cycle First Listed: 2002
AU_ID: MD-02130904
Basin Name: Jones Falls
Basin Code: 02130904
HUC: 02060003
County: BA, BC
Water Type: RIVER
Water Type Detail: Non-tidal 8-digit watershed
Designated Use: Water Contact Sports
Listing Category: 4a - Impaired, TMDL completed
Pollutant: Fecal Coliform
Indicator: Direct Measurement
Priority:
Impairment Addressed in Two Years?: No
Delisting Cycle:
Approval Date: 2/12/2008

Notes:
Cycle First Listed:
AU_ID: MD-02130904
Basin Name: Jones Falls
Basin Code: 02130904
HUC: 02060003
County: BA, BC
Water Type: RIVER
Water Type Detail: Non-tidal 8-digit watershed
Designated Use: Aquatic Life and Wildlife
Listing Category: 2 - Meets water quality criteria for the cause specified
Pollutant: Phosphorus (Total)
Indicator: Dissolved Oxygen
Priority:
Impairment Addressed in Two Years?: No
Delisting Cycle: 2010
Approval Date: 3/15/2010

Notes:
Cycle First Listed:
AU_ID: MD-02130904-Multiple_Segments
Basin Name: Jones Falls
Basin Code: 02130904
HUC: 02060003
County: BA, BC
Water Type: RIVER
Water Type Detail: Subwatershed
Designated Use: Aquatic Life and Wildlife
Listing Category: 2 - Meets water quality criteria for the cause specified
Pollutant: Copper
Indicator: Direct Measurement
Priority:
Impairment Addressed in Two Years?: No
Delisting Cycle: 2006
Approval Date: 12/2/2004

Notes:
