

The Recreation Committee consists of volunteers who meet with the park staff to make Lake Roland a recreational event destination for city and county residents, as well as visitors from further afield. We work with the park staff to introduce new activities to the park, as well as supporting the Rangers with the regularly scheduled activities on the calendar.

Our key objective is to make the park a fun place to visit for groups of all ages through a range of activities which include fishing, canoeing, and the Donut Run series. The fishing and canoeing events run from late spring to early fall, and the Donut Run series is being held throughout the year.

The Recreation Committee meets as needed on the second Thursday evening of each month. The Committee can be contacted at recreation@lakeroland.org.
